DETAILED ACTION

Introduction

1. Applicants' amendment and remarks filed on 6/1/2010 has been entered. Claim 25 has been amended. Claims 25-28 and 33-35 are active.
2. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
3. In response to the amendment to claim 25, in which the newly added limitation is deemed to be new matter and/or vague and indefinite as set forth below, the grounds of rejection in Office action mailed 4/22/2009 have been withdrawn for now, and to be reinstated, if appropriate, after the 112 issues are resolved.

Claim Rejections - 35 USC § 112

4. Claims 25-28 and 33-35 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

More particularly, the newly added term "solidified" in claim 25 is new matter.

Applicants' argument at Remarks page 8:

"Applicant has amended claim 25 to recite a "solidified foamed material". Support for this language can be found in paragraph [0016], and in particular in the last sentence of paragraph [0016] of U.S. Patent Publication No. 2006/0127663A 1 (the published application)."

However, it is inconceivable that how a "solidified foamed material" has components still in fluid or liquid state. See recitations in claim 25 throughout. The preamble "solidified" is incommensurate with the recited limitations, and therefore is still unsupported by the specification. No where is there a disclosure in the specification shows that a "solidified" material is composed of components in fluid or liquid state. A clear support is required in the next reply.

5. Claims 25-28 and 33-35 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

More particularly, the newly added term "solidified" in claim 25 renders the claim vague and indefinite. The term "solidified" in preamble is incommensurate with the physical state of components in fluid or liquid state, therefore it is unclear what is the intended scope of the claimed invention.

Response to Arguments

6. Applicant's arguments have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

7. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
